Profile

As a final-year Computer Science Engineering student passionate about software development, I have gained hands-on experience in creating efficient and scalable software solutions. Proficient in modern programming languages and development frameworks, I am eager to apply my technical skills, creativity, and problem-solving abilities to make a meaningful contribution to an innovative development team.

Projects

- **Product Landing Page:** Designed and developed a responsive product landing page using HTML, CSS, and JavaScript.
- **Deepfake Video Detection:** Developed a high-accuracy deep learning model using CNNs in Python to differentiate between fake and authentic video samples, achieving over 96% accuracy and advancing video authentication technology.

Online Courses & Certifications

- The Complete 2024 Web Development Bootcamp - [Udemy](#)
- Oracle Cloud Infrastructure 2023 AI Certified Foundations Associate - [Oracle](#)
- Networking Basics - [Cisco](#)

Education

BE Computer Science [SIMATS University](#)

Chennai, India 2021-2025

Relevant Courses: Internet Programming, Java, Database Management System, Data Structures, Cloud Computing & Artificial Intelligence.

Skills

- **Front-End Development:** HTML5, CSS3, JavaScript
