Profile

Final-year Computer Science Engineering student with a strong passion for web development and cyber Security. Equipped with hands-on experience in developing dynamic and responsive user interfaces, I am proficient in modern web technologies and frameworks. Eager to leverage my technical skills, creativity, and problem-solving abilities to contribute effectively to a forward-thinking development team.

Projects

- Product Landing Page: Designed and developed a responsive product landing page using HTML, CSS, and JavaScript.
- Music Player using Javascript: Created a fully functional music player application using JavaScript.
- Responsive blog website: Developed a blog website with a focus on responsive design, ensuring optimal user experience across various devices.
